My dear Dewan

Thank you for your letter of 13th giving names and particulars of four possible Assistant Intros. Mr. Subbaya of course I know and Mr. Naraniengar I cannot manage to see as he is in Bangalore, but as to the other two, A. Naraniengar and G. Krishna Rao, I should be very glad if you could order them to come in and see me as of course I can make no selection till after personally meeting each of the officers.

2- I enclose for your perusal a letter which I wrote to Mr. Kantaray Rao, proposing scholarships for the boys who recently left the now-defunct Royal School and as you see, the Maharaja has approved of the scheme. I think the next step should be to write to you about it, through the

Resident but I should be glad
to know if you have any sug-
gestions to make before the
matter is formally launched

3 I return your copy
of the Curl List

Yours sincerely
S. J. Fraser

No. Secretary (with previous DO corrects
between me and Mr Fraser)

Please draft an order recording H H's sanction to the Scheme of Scholarships, which should be cast into proper shape, with reference to other scholarship schemes. Mr. Fraser says the Scholarships will be paid by the Palace. This is a point I will leave to Her Highness to decide. so leave blank. As the cost of Her Highness's Education is borne by the State, this too is a proper charge against it I believe -

My dear Mr. Kautsky

I am writing to ask you to kindly lay before Her Highness a proposal for a grant of scholarships to those boys of the late Royal School, who left it at Xmas after passing the Lower Secondary Examination. I find that in the time of his late Highness, it was the custom to give scholarships to those of his schoolmates who left the Royal School to continue their education elsewhere, and no doubt H H the Maharaja Regent will approve of the same privilege being granted to the companions of the present Maharaja. The money would be paid out of Palace funds.

2. Roughly the scale I would propose would be, as follows.

- (1) During the Matriculation Course, Rs 5, per mensem for 3 years
- (2) During the F A Course Rs 8, per mensem for 2 years.
- (3) During the B A Course Rs 12 per mensem for 2 years -

6

Any youth who after graduating joined either the medical, Engineering, Agricultural, or Teachers' colleges, might get Rs 20 per mensem, the amounts of (1) and (3) might be raised to Rs 10 and Rs 15 respectively for any boy who studied out of Mysore. A special grant might be made if any of our Scholarship holders came at top of the list in any of his examinations - the grant would of course be subject to the usual rules and good behaviour and so on. The above system would be better in my opinion, than any fixed sum as the continuation and increase of the assistance would depend on results, and encouragement could be given to some of the boys whose education would probably be otherwise neglected.

On Her Highness' giving her approval, I will write to the Dewan to get the scheme put into regular shape by the Educational Department, and the boys might get their Scholarships by the time that they return to work after hot weather vacation, I attach a List of the boys

Yours Sincerely
S/S M. Fraser.

Sir,

The Proceedings of the Government of Mysore order No 3381 82-Ed 90 dated 13th September 1897 (a copy of which was ~~for~~ to me with the First Assistant Resident's letter No 3933, dated the 21st September 1897) institute the award of scholarships to certain boys who had been the companions of H H the Maharajah in school, on their leaving to continue their studies in other schools. I have the honour to request that ~~you~~ will move the Government of Mysore to extend the ~~same~~ privilege to two more boys ~~M~~ S Ramachandra Rao, and M. Narasimha Rao, who are now leaving,

It's class for one of the High schools
 at Mysore I ask that they should be
 granted Scholarships because they are in
 every way as deserving as the other boys
 who have been given them, and leave us
 not for any fault of their own, but in
 the interest of their future progress they
 have not passed the Lower Secondary
 Examination, & the course of studies
 here, did not lead them quite in that
 direction, but are qualified to start
~~any High school in the same form~~
 with boys who have passed that test
